

CAR MEMBERS CODE OF ETHICS

We value open, honest, and fair transactions, conducted by trained and knowledgeable staff that will ensure integrity, accuracy, and safety at our facilities.

We value our role as critical partners in finding sustainable economic and environmental solutions, to operating as good corporate citizens, and to supporting the social welfare and economic development of the communities in which we live and work.

Members are committed to conducting business honestly, ensuring that their business practices are fair and accurate, and ensuring that products meet or exceed our customers' expectations. Members are encouraged to consider further measures to continually assess and improve their business practices, such as by participating in industry-sponsored programs or attending other business training and certification programs.

Members are committed to providing a safe and healthy workplace for their employees and the public. In addition, Members are encouraged to consider further measures to continually assess and improve safety practices in their workplace, as by participating in industry sponsored safety training and certification programs.

Members are committed to complying with all local, state, and federal Laws and regulations applicable to their businesses and facilities. In addition, Members are encouraged to consider further measures to continually assess compliance with applicable laws and regulations, such as by participating in industry-sponsored programs or similar programs addressing laws and regulations relating to the automotive recycling industry.

Join your fellow Colorado Auto Recyclers today!

There are many benefits of joining our association and many reasons we need honest and consistent auto recycling professionals with integrity to join us in our effort to be better business people and contributors to society. Below are some of the benefits we offer:

- ***Providing education and training to members***
- ***Provide networking and co-op purchasing opportunities***
- ***Promote the image of the industry***
- ***Lobbyist and governmental affairs committee***
- ***Focused committees working on relevant industry issues***

We take pride in our members being professional, compliant, fair, and honest. We have a vested interest in a clean, safe, recycling environment and we support our members' success by providing necessary resources, informative events, and networking opportunities to help you grow and prosper.

What is CAR?

The Colorado Automotive Recyclers Association (CAR) is an organization founded to advance the auto recycling industry in our state. CAR provides its members with support, training and information about safety, regulatory compliance and governmental influences that effect our industry. In addition, CAR participates in programs that provide business support and access to inventory for their membership.

Who is CAR?

CAR is you! CAR is the collective strength of automotive recyclers and businesses that support recycling. Each member brings their own unique knowledge and skills to make the Colorado Automotive Recyclers a resource for all its members.

CAR members are held to the highest standards in the State of Colorado and have some of the best business practices in the country. We are continually striving to protect the environment and create awareness, while encouraging profitable and safe businesses.

How can joining CAR help you?

Help you build your business through:

Networking:

Being a member of CAR provides the opportunity for you to share ideas with your peers.

Education:

CAR members get a front seat to all the education and Annual Meetings provided just for our members. Watch your mailbox and email for information as it is available.

Communication:

All CAR members will receive free bi-monthly newsletters. We have partnered with our surrounding state associations to bring to you the **4 Corner News**. The newsletter will be available in hard copy as well as electronic.

Website and CAR only member inventory search:

Our new website hosted by Car-Part.com has a brand new format to make searching members only inventory easier but will help to highlight all CAR members. Your logo and full facility information will be searchable on the website making it easier for customers to find you and the right parts.

CAR Exists to Protect the Auto Recycling Industry for the Future

CAR maintains a watchful eye on the activities of local, state and federal agencies to watch for changes to regulations that will affect our members.

We have worked closely with the Colorado Department of Public Health and Environment to assure that changes to our Stormwater certifications so not impose an undue burden on membership.

We have held seminars to help our members understand the regulations and reporting. We have also developed templates and other tools to help our members maintain compliance with all aspects of our industry.

CAR has in the past actively sponsored and supported legislation intended to not only protect our members but also to promote consumer safety and a cleaner environment for Colorado.

CAR has many committees focused on all the important areas of concern for auto recyclers... **Won't you JOIN us today and be a part of protecting our industry?**
